

MOTION BY SUPERVISOR DON KNABE

April 27, 2010

AMENDMENT to Item 26-C

I agree that a database used to track poorly performing contractors could be beneficial to the County, however I believe that any system like this needs to have clearly defined roles and parameters.

I, THEREFORE, MOVE that Board of Supervisors direct the working group's report to include the following:

- An examination of what mechanisms and/or databases the County already has in place to monitor its contractors, so we can utilize what is currently working;
- A more appropriate term than the "Do Not Call List", for the database that will track the County's poorly performing contractors;
- A clearly defined purpose for the list;
- A mechanism to remove contractors from the list that have complied with their obligations, along with appropriate notification;
- Clearly defined roles and responsibilities for County staff charged with updating this list.
